Dear Sponsor,

ISMSC2019 promises to be an extraordinary scientific event that should attract more than 500 participants among scientists and industrial contributors. The program will comprise keynote and invited lectures by world-renowned leaders in the respective areas. Further details on the event can be found in the website.

Active participants are expected from industry, academia, and research centers. The scientific program in Lecce will not only cover all important issues related to Macrocyclic and Supramolecular Chemistry, but it will also provide a forum for discussing topics on Materials and Nanoscience.

Don't miss this exceptional opportunity to meet an outstanding international audience and show your products and technology!

We hope your Company/Institution will support this important event by contributing at one of the four main levels of sponsorship (see Sponsorship Request Form). Beside them, there are also sponsorship packages that can be negotiated *ad hoc* per your Company/Institution's marketing strategy.

We invite you to be a partner in this event. Please review this form and contact us if you have any questions. We will be happy to find the best option for your Company/Institution.

We look forward to seeing you in the beautiful Lecce for the ISMSC2019!
